

## 6SN1130-1DB13-0BA0

Industrial automation components

<b>Manufacturer</b>	Siemens
<b>Catalog number</b>	6sn1130-1db13-0ba0
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	5.90 kgs
<b>Cable Specification</b>	2 × 9
<b>Product Type</b>	Module
<b>Current</b>	18 A
<b>Relay Specifications</b>	18 A

### Description

The Siemens 6SN1130-1DB13-0BA0 is a SIMODRIVE 611-D feed module designed for precise control in industrial automation systems. This module supports dual-axis operation with current ratings of 9/18 A, making it suitable for applications requiring high-performance motion control. It features a direct measuring system and voltage signals, ensuring accurate and reliable operation. The module is part of Siemens' SIMODRIVE 611 series, known for their robustness and efficiency in demanding industrial environments. With a weight of approximately 7.32 kg, it is engineered for durability and ease of integration into existing systems. This feed module is ideal for applications in sectors such as automotive manufacturing, aerospace, and power generation, where precise motion control is critical.
