

## 6SN1145-1AA01-0AA2

Industrial automation components

<b>Manufacturer</b>	Siemens
<b>Catalog number</b>	6sn1145-1aa01-0aa2
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Legacy / discontinued

### Technical specification

<b>Weight</b>	9.72 kgs
<b>Product Type</b>	Module
<b>Power</b>	25 kW
<b>Cooling Capacity</b>	25 kW
<b>Power Rating</b>	10/25 kW
<b>Cooling Type</b>	Internal/External
<b>Voltage Range</b>	400-480 V AC
<b>Manufacturer</b>	Siemens
<b>Supply Voltage</b>	400-480 V AC
<b>Contactor Type</b>	Mains contactor with break contact
<b>Discontinued Status</b>	Discontinued

### Description

The Siemens 6SN1145-1AA01-0AA2 is a SIMODRIVE 611 infeed module designed for industrial automation applications requiring reliable power supply solutions. This module operates within a power range of 10 to 25 kW, accommodating various operational needs. It supports both internal and external cooling options, providing flexibility in different environmental conditions. The unregulated design ensures consistent performance, while the integrated mains contactor with break contact enhances safety and operational reliability. Manufactured in Germany, this module adheres to rigorous quality standards, ensuring durability and precision under demanding conditions. Please note that this product was discontinued on April 1, 2015, but remains repairable, offering a cost-effective solution for extending the functional life of your equipment.
