

## 6SN1146-1AB00-0BA1

Industrial automation components

<b>Manufacturer</b>	Siemens
<b>Catalog number</b>	6sn1146-1ab00-0ba1
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Legacy / discontinued

### Technical specification

<b>Weight</b>	2.63 kgs
<b>Cooling Capacity</b>	10 kW
<b>Power</b>	10 kW
<b>Product Type</b>	Module
<b>Power Rating</b>	5/10 kW
<b>Cooling Type</b>	Internal/External
<b>Discontinued Date</b>	April 1, 2015
<b>Repairable</b>	Yes
<b>Cooling Type</b>	Internal/External
<b>Dimensions</b>	50 mm x 480 mm x 190 mm
<b>Weight</b>	6 kg
<b>Operating Temperature Range</b>	0°C to 55°C

### Description

The Siemens 6SN1146-1AB00-0BA1 is an infeed module designed for the SIMODRIVE 611 series, offering a power rating of 5/10 kW. This unregulated module supports both internal and external cooling solutions, ensuring efficient thermal management in various industrial applications. It is engineered to provide a reliable power supply for motor-driven systems, making it a crucial component in industrial automation and machining processes. The module's robust construction and seamless integration capabilities make it suitable for users seeking precision, dependability, and energy efficiency. Please note that this product was officially discontinued on April 1, 2015, and is no longer in mass production. However, it remains repairable, and professional repair services are available to extend its usability.
