

6SN1146-1BB00-0FA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1146-1bb00-0fa1
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	24.49 kgs
Weight	24.49 kg
Dimensions	10 x 10 x 10 mm
Power Rating	120/156 kW
Cooling Type	External
Discontinuation Date	April 1, 2015

Description

The Siemens 6SN1146-1BB00-0FA1 is a high-performance infeed/regenerative feedback module designed for the SIMODRIVE 611 system. This module operates within a power range of 120 to 156 kW, providing efficient and reliable energy management for industrial automation applications. It features stabilized external cooling, ensuring optimal performance even under demanding conditions. Manufactured in Germany, this module reflects Siemens' commitment to quality and innovation in industrial automation. Despite its discontinuation in April 2015, the 6SN1146-1BB00-0FA1 remains a valuable component for existing systems, offering repairable solutions that extend its service life and provide cost-effective alternatives to replacement.
