

6SN1161-1CA00-0AA0

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1161-1ca00-0aa0
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.19 kgs
Product Type	Drive Bus Cable
Product Family	SIMODRIVE 611-D
Module Width	50 mm
Manufacturer	Siemens
Product Status	Discontinued

Description

The Siemens 6SN1161-1CA00-0AA0 is a specialized drive bus cable designed for the SIMODRIVE 611-D system, specifically tailored for modules with a width of 50 mm. Manufactured by Siemens, a leading provider of industrial automation solutions, this cable ensures reliable data transmission and secure connectivity within automated systems. Its robust construction is engineered to withstand the demands of continuous operation in industrial environments, maintaining system efficiency and reducing downtime. The 6SN1161-1CA00-0AA0 is compatible with Siemens SIMODRIVE systems, facilitating seamless communication between modules. This product is ideal for applications requiring precise control and high reliability, such as automotive, aerospace, power generation, and electronics industries. Please note that this product has been officially phased out of production as of April 1, 2015, and is no longer supported by new software updates. However, repair services are available to extend its usability. For more information, refer to the product page on MRO Electric.
