

6SN1161-1CA00-0AA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1161-1ca00-0aa1
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Product Type	Drive
Module Width	50 mm
Cable Type	Round Cable
Manufacture Country	Germany
Series	SIMODRIVE 611-D
Manufacturer	Siemens
Part Number	6SN1161-1CA00-0AA1
Category	Podzespoły automatyki przemysłowej

Description

The Siemens 6SN1161-1CA00-0AA1 is a Drive Bus module from the SIMODRIVE 611-D series, designed for industrial automation applications. This module is specifically engineered for use with a module width of 50 mm and utilizes a round cable for connectivity. Manufactured in Germany, it offers reliable performance for various automation systems. Please note that this product was officially discontinued on April 1, 2015, and is no longer in mainstream production. Despite its discontinuation, the 6SN1161-1CA00-0AA1 remains repairable, providing an economically viable option compared to outright replacement. Repair services can extend the product's usability, ensuring operational continuity even if it is not future-proof. For professional repair services, UNIS Group provides expert solutions to restore and maintain the efficiency of your device, thus preserving its valuable role within your system infrastructure. Opting for repairs can reduce downtime and maintain system stability without the need to invest in immediate replacements.
