

6SN1161-1CA00-0BA1

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1161-1ca00-0ba1
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.04 kgs
Product Type	DRIVE bus module
Module Width	100 mm
Cable Type	Round cable
Manufacture Country	Germany
Discontinued Date	April 1, 2015

Description

The Siemens 6SN1161-1CA00-0BA1 is a DRIVE bus module from the SIMODRIVE 611-D series, designed for industrial automation applications. This module features a width of 100 mm and utilizes a round cable for connectivity, ensuring compatibility with various SIMODRIVE modules. Manufactured in Germany, it adheres to high engineering standards, reflecting Siemens' commitment to quality. Although officially discontinued on April 1, 2015, the 6SN1161-1CA00-0BA1 remains a vital component for maintaining legacy systems in diverse industrial settings. Its repairable design offers a cost-effective solution for extending the lifespan of existing equipment, making it a practical choice for businesses aiming to sustain operational continuity without investing in new replacements. Opting for professional repair services can mitigate downtime and preserve system integrity, ensuring that the module continues to perform reliably within its operational parameters.
