| Manufacturer | Siemens |
| Catalog number | 6sn1162-0ba02-0aa1 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|-----------------------|--|
| Weight | 3.65 kgs |
| Voltage Range | 360 to 480 V |
| Current Rating | 0.25 A |
| Compatibility | 6SN1123-1AA01-0FA0, 6SN1123-1AA01-0FA1, 6SN1145-1BA01-0DA0, 6SN1145-1BA01-0DA1 modules |
| Product Type | Built-in Fan |
| Series | SIMODRIVE 611 |

Description

The Siemens 6SN1162-0BA02-0AA1 is a built-in fan designed for the SIMODRIVE 611 series, specifically tailored for 300 mm modules requiring internal and external cooling solutions. This fan ensures efficient thermal management, enhancing the performance and longevity of industrial automation systems. It operates within a voltage range of 360 to 480 V and is rated for a current of 0.25 A, making it suitable for various industrial applications. The fan's robust construction supports continuous operation in demanding production environments, ensuring system reliability and efficiency. Notably, this model is not compatible with the following modules: 6SN1123-1AA01-0FA0, 6SN1123-1AA01-0FA1, 6SN1145-1BA01-0DA0, and 6SN1145-1BA01-0DA1. For optimal performance and to maintain system integrity, it's essential to use the 6SN1162-0BA02-0AA1 fan with the specified SIMODRIVE 611 modules.
