

6SN1162-0BA02-0AA2

Industrial automation components

Manufacturer	Siemens
Catalog number	6sn1162-0ba02-0aa2
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	3.58 kgs
Weight	3.64 kg
Height	160 mm
Length	200 mm
Width	235 mm
Dimensions	160 mm x 200 mm x 235 mm
Cooling Type	Internal and External
Compatibility	SIMODRIVE 611 300 mm Modules

Description

The Siemens 6SN1162-0BA02-0AA2 is a built-in fan designed for the SIMODRIVE 611 system, specifically engineered to provide efficient internal and external cooling for 300 mm modules. This fan assembly ensures optimal temperature control, enhancing the performance and longevity of the drive system. Manufactured in Germany, it features a UL-certified design, underscoring its compliance with international safety standards. The fan is compatible with both internal and external cooling configurations, offering flexibility in various industrial applications. Notably, it is not compatible with modules 6SN1123-1AA01-0FA0, 6SN1123-1AA01-0FA1, 6SN1145-1BA01-0DA0, and 6SN1145-1BA01-0DA1. This component is ideal for applications requiring reliable and efficient cooling solutions, such as machine tools, industrial automation systems, robotics, and packaging machinery. Its robust construction and precise engineering make it a valuable asset in maintaining the operational efficiency of critical industrial equipment.
