Description

The Siemens 6SN1162-1AA00-0AA0 is a universal empty housing from the SIMODRIVE 611 series, designed for versatile applications requiring space efficiency. Constructed with dimensions of 480 mm in width, 50 mm in length, and a height of 288 mm, it offers a compact solution for various industrial automation needs. Weighing approximately 2.75 kg, this housing includes fan cooling to maintain optimal operating temperatures. Manufactured in Germany, it adheres to Siemens' high-quality standards, ensuring durability and reliability. Despite its product cancellation status marked by a cancellation date on April 1, 2015, the 6SN1162-1AA00-0AA0 remains a notable choice for maintaining older systems. Given its repairable nature, opting for repairs over replacement presents clear advantages, such as cost savings and adherence to sustainability practices by extending the product's longevity. UNIS Group can expertly conduct these repairs, helping to maximize the utility of the 6SN1162-1AA00-0AA0 well beyond its official lifecycle, even though future-proofing is not guaranteed.
