Manufacturer	Siemens
Catalog number	7mf03003wf015sf2-z
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Pressure Transmitter
Product Family	SITRANS P320
Material	Stainless Steel
Communication Protocol	HART
Process Connection	1/2-14 NPT

Description

The Siemens 7MF0300-3WF01-5SF2-Z is a SITRANS P320 pressure transmitter designed for precise pressure measurement in industrial applications. This device offers high accuracy and reliability, making it suitable for various process control systems.

Key features include a robust stainless steel construction, a user-friendly interface, and compatibility with standard communication protocols. The transmitter is engineered to withstand harsh environments, ensuring long-term performance and minimal maintenance requirements.

Its versatile design allows for easy integration into existing systems, providing seamless operation and data acquisition. Whether used in chemical processing, oil and gas, or water treatment facilities, the SITRANS P320 delivers consistent and accurate pressure readings, contributing to optimized process efficiency and safety.
