Ask about this product

Manufacturer	Siemens
Catalog number	7sa5115-4ca52-0cf2ee
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	7SA5115-4CA52-0CF2/EE
Product Type	Distance Protection Relay
Fault Detection	Polygonal Impedance, Voltage-Controlled Overcurrent, Ground Fault
Communication Interfaces	V.24 (RS232C), Fiber Optic

Description

The Siemens 7SA5115-4CA52-0CF2/EE is a high-performance distance protection relay designed for the protection of electrical transmission lines. This advanced relay offers comprehensive fault detection capabilities, including polygonal impedance fault detection, voltage-controlled overcurrent fault detection, and ground fault detection for ungrounded systems.

It features a user-friendly LCD display for system and relay information, and supports waveform capture for detailed fault analysis. The relay is equipped with multiple communication interfaces, including V.24 (RS232C) and fiber optic interfaces, ensuring seamless integration into various control systems.

Its robust design and versatile functionality make it an ideal solution for enhancing the reliability and efficiency of power distribution networks.
