Manufacturer	Siemens
Catalog number	7um5115-4ca00-0cbee
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	7UM5115-4CA00-0CB/EE
Product Type	Multifunctional Numerical Protection Relay
Application Area	Generator and Motor Protection
Protection Functions	Overcurrent, Earth-Fault, Overload, Negative-Sequence, Frequency
Fault Event Recording	Yes
Communication Interfaces	IEC 60870-5-103

Description

The Siemens 7UM5115-4CA00-0CB/EE is a multifunctional numerical protection relay designed for generator and motor protection applications. It offers comprehensive protection functions, including overcurrent, earth-fault, overload, negative-sequence, and frequency protection, safeguarding rotating assets from electrical faults.

The device records fault event data for post-fault analysis and supports standard power-system communication interfaces, ensuring seamless integration into existing systems. With its robust design and advanced features, the 7UM5115-4CA00-0CB/EE is ideal for power plants and distributed-generation facilities, providing reliable and efficient protection for critical equipment.
