Manufacturer	Siemens
Catalog number	7um5125-4cb01-0cb0jj
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	7UM5125-4CB01-0CB0/JJ
Product Type	Digital Differential Protection Relay
Application Area	Industrial Electrical Systems
Protection Functions	Overcurrent, Earth Fault, Unbalanced Load Monitoring

Description

The Siemens 7UM5125-4CB01-0CB0/JJ is a digital differential protection relay designed for industrial applications. This device offers advanced protection features to safeguard electrical systems against faults, ensuring operational reliability and safety.

The relay is housed in a robust enclosure suitable for panel mounting, facilitating easy integration into existing control panels. Its precise fault detection capabilities make it ideal for applications requiring high sensitivity and reliability.

The 7UM5125-4CB01-0CB0/JJ is part of Siemens' comprehensive range of protection relays, reflecting the company's commitment to delivering innovative solutions for industrial automation.
