Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	A5E00023807 + A5E00010347
Product Type	Mainboard
Compatible Systems	Siemens PC 620, Siemens PC 670
Dimensions	88.0 x 88.0 x 88.0 cm

Description

The Siemens A5E00023807 + A5E00010347 is a refurbished industrial motherboard designed for the Siemens PC 620 and PC 670 series embedded computers. This mainboard is integral to the operation of these systems, providing essential processing and connectivity capabilities.

It has been tested and cleaned to ensure optimal performance, making it a reliable choice for industrial automation applications. The motherboard is compatible with various Siemens automation components, facilitating seamless integration within existing systems.

Its robust design ensures durability and longevity, even in demanding industrial environments. This product is ideal for businesses seeking to maintain or upgrade their Siemens PC 620 or PC 670 systems without the need for new hardware investments.
