Manufacturer	Siemens
Catalog number	e89110-b2320-l1-v2
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	E89110-B2320-L1-V2
Product Type	Industrial Circuit Board
Application Area	Motor Control Systems
Metal Base	Yes

Description

The Siemens E89110-B2320-L1-V2 is a high-quality industrial circuit board designed for motor control applications. Manufactured by Siemens, this component is integral to the SINAMICS DCM drive system, serving as a field supply unit for field currents up to approximately 500 A.

It is suitable for both 2Q and 4Q current directions, making it versatile for various industrial settings. The circuit board features a metal base for enhanced durability and efficient heat dissipation.

Its compact dimensions and robust construction ensure reliable performance in demanding environments. This component is ideal for applications requiring precise motor control and consistent power supply, such as in manufacturing processes, automation systems, and other industrial machinery.
