Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	E89110-B2320-L1
Product Type	Circuit Board
Application Area	Industrial Automation
Material	Metal Base

Description

The Siemens E89110-B2320-L1 is a specialized circuit board designed for industrial automation applications. Manufactured by Siemens, this component is integral to the SINAMICS DCM drive system, serving as a field supply unit.

It features a metal base for enhanced durability and efficient heat dissipation. The board is equipped with multiple connector pins and copper contacts, facilitating reliable electrical connections. Its robust construction ensures optimal performance in demanding industrial environments.
