Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	FDK:085U0236
Product Type	Add-on module
Communication Protocol	PROFIBUS PA Profile 3
Compatible Transmitters	SITRANS F M MAG 6000, SITRANS F C MASS 6000

Description

The Siemens FDK:085U0236 is an add-on module designed for integration with Siemens Flow Instruments USM-II transmitters, including the SITRANS F M MAG 6000 and SITRANS F C MASS 6000 series. This module facilitates communication via the PROFIBUS PA Profile 3, enabling seamless data exchange between the transmitter and PROFIBUS PA networks.

It serves as a gateway, allowing PROFIBUS master devices to access various transmitter parameters, thereby enhancing system integration and control capabilities. The module is intended for use in process automation applications where precise flow measurement and control are critical.

Its robust design ensures reliable performance in demanding industrial environments. For detailed installation and operational guidelines, refer to the operating manual provided by Siemens.
