Manufacturer	Siemens
Catalog number	l1m13134700015
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	L1M13134700015
Product Type	Primary Section for Linear Motor
Motor Type	3-Phase Synchronous Motor
Cable Included	Yes

Description

The Siemens L1M13134700015 is a component of the SIMOTICS L series, specifically designed as a primary section for linear motors. This 3-phase synchronous motor is engineered to deliver precise and reliable performance in linear motion applications.

It features a robust construction suitable for demanding industrial environments, ensuring durability and longevity. The motor is equipped with a factory-mounted power cable, facilitating straightforward installation and reducing setup time.

Its design emphasizes efficiency and high performance, making it an ideal choice for applications requiring accurate linear positioning and motion control.
