Manufacturer	Siemens
Catalog number	mpp483ieh-s44-6fc5303-1af12-8bx0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	6FC5303-1AF12-8BX0
Product Type	Machine Push Button Panel
Connection Type	Industrial Ethernet
Handheld Terminal Compatibility	SINUMERIK HT 8
Supply Voltage	24 V DC
Max Power Consumption	35 W
Front Protection Rating	IP54

Description

The Siemens SINUMERIK MPP483IEH-S44 is a machine push button panel designed for industrial automation applications. This panel is part of the SINUMERIK series, known for its robust and reliable components tailored for machine control systems.

The MPP483IEH-S44 variant features an industrial Ethernet connection and is compatible with SINUMERIK HT 8 handheld terminals, facilitating seamless integration and enhanced operational efficiency. Constructed with a front degree of protection rated at IP54, it ensures durability and protection against dust and water ingress, making it suitable for demanding industrial environments.

The panel operates on a 24 V DC supply voltage and has a maximum power consumption of 35 W, aligning with standard industrial power specifications. Its design and features make it an ideal choice for applications requiring reliable and efficient machine control interfaces.
