Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Brand	Siemens
Part Number	S5 SMP-E347-A1 - C8451-A13-A42
Product Type	Microcomputer Module
Series	SIMATIC S5
Bus System	SMP-BUS

Description

The Siemens S5 SMP-E347-A1 - C8451-A13-A42 is an unused microcomputer module from Siemens' SIMATIC S5 series, designed for industrial automation applications. This module is part of the SMP-BUS backplane system, offering reliable communication and control capabilities within automation systems.

It is housed in its original, sealed packaging, ensuring its pristine condition. The module is compatible with other SMP-BUS components, facilitating seamless integration into existing automation setups.

Its robust design and high-quality construction make it suitable for demanding industrial environments, providing long-term reliability and performance.
