Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Siemens
Part Number	A5E01206076
Product Type	Power Control Driver Board
Compatible Models	SINAMICS G120 Series
Application Area	Industrial Automation

Description

The Siemens A5E01206076 is a power control driver board designed for use in Siemens SINAMICS G120 series frequency converters. This component is integral to the operation of these variable frequency drives (VFDs), ensuring efficient power management and distribution within the system.

The A5E01206076 is compatible with various SINAMICS G120 models, providing a reliable solution for maintaining optimal performance in industrial automation applications. Its robust design and high-quality construction make it suitable for demanding environments where precision and durability are essential.
