

TS10-441-8MA11

Industrial automation components

Manufacturer	Siemens
Catalog number	ts10-441-8ma11
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	0.10 kgs
Voltage	24 V
Current	0.5 A
Channel Configuration	8
Signal Type	24
Product Type	Module
Signal Level	24 V

Description

The Siemens 6ES5 441-8MA11 is a digital output module designed for the SIMATIC S5 series, specifically tailored for the S5 95/100 system types. This module provides eight digital outputs, each capable of handling 24V DC at 0.5A, facilitating efficient control of industrial machinery. It is mounted on a standard 35mm DIN rail, with a length of 483 mm, making it suitable for integration into 19-inch cabinets. The module is constructed with galvanically and electrolytically galvanized steel, ensuring durability and resistance to environmental factors. Its compact dimensions and robust design make it an ideal choice for applications requiring reliable digital output control in industrial automation systems.
