

ZNX-EIP-200S

Industrial automation components

Manufacturer	Siemens
Catalog number	znx-eip-200s
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Interface Type	ethernet
Product Type	Module

Description

The ZNX-EIP-200S module from SIEMENS is an advanced solution that utilizes an ethernet interface for efficient communication in industrial systems. It provides reliable connectivity and integration with various devices, making it an ideal choice for applications requiring high performance and flexibility. Its design is optimized for easy installation and use, accelerating the deployment process in industrial environments.
