| Manufacturer | Telemecanique |
| Catalog number | atv58eu18n4 |
| Category | Industrial automation components |
| Product type | Industrial automation components |
| Status | Active product |

Technical specification

| | |
|-----------------------------|----------|
| Weight | 6.17 kgs |
| Cooling Capacity | 0.75 |
| Product Type | Drive |
| Signal Type | 460 |
| Relay Specifications | 460 VAC |
| Power | 0.75 |
| Signal Level | 460 V |

Description

The Telemecanique ATV58EU18N4 is a compact adjustable speed drive designed for industrial automation applications. With a power rating of 0.75 kW (1 HP) and an input voltage range of 380-500 V at 50/60 Hz, it is suitable for controlling three-phase asynchronous motors. The drive features an internal EMC filter, ensuring compliance with electromagnetic compatibility standards. Its compact design allows for easy integration into various automation systems, providing reliable and efficient motor control solutions.
