

RM 730L-N 100619LD-N

Industrial automation components

Manufacturer	Telemecanique
Catalog number	rm-730l-n-100619ld-n
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Rated Voltage	230V AC V
Number of Contacts	4 contacts
Contact Type	Changeover type
Contact Rating	7A at 230V AC A/V
LED Indicator	Yes
Mechanical Position Indicator	Yes
Socket Compatibility	14-pin standard

Description

The Telemecanique RM 730L-N 100619LD-N is a miniature power relay designed for industrial automation applications. Operating at a rated voltage of 230V AC, it features four changeover contacts, each rated for 7A at 230V AC, suitable for controlling various industrial equipment. The relay is equipped with an LED indicator for visual status monitoring and a mechanical position indicator for manual operation. Its compact design allows for easy integration into standard 14-pin sockets, making it versatile for different control systems. The RM 730L-N 100619LD-N is ideal for applications requiring reliable switching and status indication in industrial environments.
