

## XBTP021010

Industrial automation components

<b>Manufacturer</b>	Telemecanique
<b>Catalog number</b>	xbtp021010
<b>Category</b>	Industrial automation components
<b>Product type</b>	Industrial automation components
<b>Status</b>	Active product

### Technical specification

<b>Weight</b>	0.69 kgs
<b>Display Type</b>	Alphanumeric Fluorescent
<b>Display Size</b>	2 Lines x 20 Characters
<b>Input Voltage</b>	24 VDC
<b>Power Consumption</b>	10 W
<b>Function Keys</b>	8 or 12 (with LEDs)
<b>Dimensions</b>	12.6 cm x 12.4 cm x 2.2 cm

### Description

The Schneider Electric XBTP021010 is a compact operator interface terminal from the Magelis XBT-P series, designed to enhance human-machine interaction in industrial automation settings. This terminal features a 2-line by 20-character alphanumeric fluorescent display, providing clear and concise system information. Operating on a 24 VDC power supply with a maximum power consumption of 10 W, it ensures energy-efficient performance. The XBTP021010 is equipped with 8 or 12 function keys, including built-in LEDs, facilitating intuitive control and monitoring of automated processes. Its compact dimensions—12.6 cm in length, 12.4 cm in width, and 2.2 cm in depth—make it suitable for installations with space constraints. The terminal's robust design ensures reliable operation in demanding industrial environments, making it an ideal choice for applications requiring efficient and user-friendly operator interfaces.
