

RKM 55-6M

Industrial automation components

Manufacturer	Turck
Catalog number	rkm-55-6m
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Weight	1.36 kgs
Weight	1.36 kg
Length	6 m
Connector Type	7/8-inch straight male and female connectors
Number of Contacts	5
Cable Jacket Material	PVC, Yellow

Description

The Turck RKM 55-6M is a high-quality actuator and sensor cordset designed for industrial automation applications. This 6-meter extension cable features a 7/8-inch straight male connector and a 7/8-inch straight female connector, both with 5 gold-plated contacts, ensuring reliable and secure connections. The flexible service cable is encased in a yellow PVC jacket, providing resistance to sunlight, oils, and flames, and is rated for cold bending at temperatures as low as -40°C. With a rated voltage of 600 V and a current capacity of 10 A, the RKM 55-6M is suitable for demanding environments. Its robust construction and high ingress protection ratings (IP67, IP68, IP69, IP69K) make it ideal for applications requiring durability and performance in harsh conditions.
