

TBEN-L5-16DIP

Industrial automation components

Manufacturer	Turck
Catalog number	tben-l5-16dip
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Turck
Interface Type	ethernet
Product Type	Module

Description

The TBEN-L5-16DIP module from Turck is an advanced solution featuring an ethernet interface, ensuring reliable communication in industrial applications. Its design is tailored for operation in harsh conditions, making it an ideal choice for complex automation systems. With high-quality construction, this module guarantees long-lasting performance and operational stability.
