Ask about this product

Manufacturer	Wago
Catalog number	750-323
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Fieldbus Coupler
Supply Voltage	24V DC V
Baud Rate	9.6 kBaud to 12 MBaud
Maximum I/O Modules	64 modules
Maximum I/O Points	6,000 points
Dimensions	65mm x 51mm x 100mm
Mounting Type	DIN Rail
Connector Type	D-Sub 9
Protection Class	IP20
Certifications	CE, UL E175199, UL E198726, 01ATEX1024 X, EEx nA II T4

Description

The WAGO 750-323 is a Fieldbus Coupler designed to integrate WAGO I/O modules into PROFIBUS DP networks, facilitating seamless communication between automation systems and field devices. Operating at a supply voltage of 24V DC, it supports baud rates ranging from 9.6 kBaud to 12 MBaud, ensuring flexible and efficient data transmission.

The module accommodates up to 64 I/O modules, with a maximum of approximately 6,000 I/O points, depending on the master device. Its compact design, measuring 65mm in length, 51mm in width, and 100mm in depth, allows for easy DIN rail mounting, optimizing space in control panels.

The 750-323 is equipped with a D-Sub 9 connector for reliable bus connection and features an IP20 protection class, making it suitable for industrial environments. Compliance with standards such as CE, UL E175199, and UL E198726, along with certifications like 01ATEX1024 X and EEx nA II T4, underscores its reliability and safety in various applications.
