Ask about this product

Manufacturer	Wago
Catalog number	750-333040-000
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Fieldbus Coupler
Communication Protocol	PROFIBUS DP
Generation	2nd Generation
Max Baud Rate	12 MBd
Fieldbus Nodes Supported	96
I/O Points Supported	6,000
Operating Temperature Range	-40°C to 70°C
Vibration Resistance	Enhanced
Shock Resistance	Enhanced

Description

The WAGO 750-333/040-000 is a Fieldbus Coupler designed for PROFIBUS DP communication, offering high-speed data transmission up to 12 MBd. This second-generation coupler is part of WAGO's XTR series, engineered for extreme environments, ensuring reliable performance in challenging conditions.

It supports up to 96 fieldbus nodes and can handle up to 6,000 I/O points, making it suitable for complex automation systems. The coupler operates over a temperature range of -40°C to 70°C and features enhanced immunity to impulse voltages and electromagnetic interference, as well as increased resistance to vibration and shock.

These attributes make the 750-333/040-000 ideal for applications requiring robust and dependable fieldbus communication solutions.
