Manufacturer	Wago
Catalog number	750-8202040-001
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	Programmable Logic Controller (PLC)
Memory Size	256 MB RAM, 256 MB Flash
Operating Temperature	-40°C to 70°C
Typ montażu	DIN Rail
Protection Rating	IP20

Description

The WAGO 750-8202/040-001 is a Programmable Logic Controller (PLC) from the PFC200 series, designed for industrial automation applications requiring robust and versatile control solutions. This controller features dual Ethernet ports and serial interfaces (RS-232 and RS-485), facilitating seamless communication in complex automation systems.

It supports various protocols, including Modbus TCP/UDP, EtherNet/IP, MQTT, and Telecontrol protocols, ensuring compatibility with diverse industrial networks. The device operates on a real-time Linux operating system, providing a stable and efficient platform for automation tasks.

With a memory configuration of 256 MB RAM and 256 MB flash, it offers sufficient resources for demanding applications. The 750-8202/040-001 is engineered for durability, with an operating temperature range of -40°C to 70°C and an IP20 protection rating, making it suitable for deployment in challenging industrial environments.

Its DIN rail mounting design ensures easy integration into existing control panels. This controller is ideal for applications in sectors such as manufacturing, energy management, and infrastructure, where reliable and flexible control systems are essential.
