Ask about this product

Manufacturer	Wago
Catalog number	750-8213
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Napięcie zasilania	24 V
Component Specifications	pfc200
Interface Type	ethernet
Product Type	Controller
Signal Type	24
Signal Level	24 V

Description

The WAGO 750-8213 is a second-generation Programmable Field Controller (PFC200) designed for industrial automation applications. It features dual Ethernet ports, CAN, and CANopen interfaces, providing versatile connectivity options.

The controller operates at a voltage of 24 V and supports signal levels up to 24 V, ensuring compatibility with various industrial systems. Its compact design, measuring 78.6 mm in width, 100 mm in height, and 71.9 mm in depth, allows for flexible installation in space-constrained environments.

The device is built to withstand harsh industrial conditions, with an operating temperature range from 0°C to 55°C and a storage temperature range from -25°C to 85°C. It also offers protection against dust and water ingress with an IP20 rating.

The WAGO 750-8213 is ideal for applications requiring reliable and flexible control solutions in industrial settings.
