Ask about this product

Manufacturer	Wago
Catalog number	750-880040-001
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Supply Voltage	24 VDC
Memory Size	1 MB
Typ montażu	DIN Rail
Operating Temperature Range	-40°C to 70°C
Communication Protocols	EtherNet/IP, Modbus TCP/UDP, IEC 60870-5-101/-103/-104, IEC 61850-7, DNP3

Description

The WAGO 750-880/040-001 is a third-generation Ethernet controller designed for industrial automation applications. It features a removable SD card slot for data storage and transfer, enhancing flexibility and reliability in system configurations.

This controller supports multiple communication protocols, including EtherNet/IP, Modbus TCP/UDP, and various telecontrol protocols such as IEC 60870-5-101/-103/-104, IEC 61850-7, and DNP3, facilitating seamless integration into diverse industrial environments.

The device operates within an extended temperature range of -40°C to 70°C, ensuring robust performance in harsh conditions. Its compact design allows for DIN rail mounting, optimizing space utilization in control panels.

The 750-880/040-001 is ideal for applications requiring reliable and versatile control solutions in industrial settings.
