Ask about this product

Manufacturer	Yaskawa
Catalog number	cimr-vb4a0009bba
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Manufacturer	Yaskawa
Part Number	CIMR-VB4A0009BBA
Product Type	Compact Vector Control Drive
Voltage Class	3-phase, 380-480V AC
Rated Output Current	8.8A
Max. Motor Capacity	3.7kW
Enclosure Type	IP20
Operating Temperature Range	-10°C to 50°C
Max. Output Frequency	400Hz
Motor Compatibility	Permanent Magnet and Induction Motors
Typ montażu	Wall Mounting
Certifications	CE, UL

Description

The Yaskawa CIMR-VB4A0009BBA is a compact vector control drive from the V1000 series, designed for general-purpose applications requiring precise motor control. Operating on a three-phase 380-480V AC input, it delivers a rated output current of 8.8A, suitable for motors up to 3.7kW. This drive features a user-friendly keypad and PC programming methods, facilitating easy setup and operation. Its IP20 enclosure ensures protection against dust and foreign objects, making it ideal for industrial environments. The CIMR-VB4A0009BBA supports a wide operating temperature range from -10°C

to 50°C, accommodating various industrial settings. With a maximum output frequency of 400Hz, it provides flexibility for different motor speeds. This drive is compatible with both permanent magnet and induction motors, offering versatility in motor selection. Its compact design allows for wall mounting, optimizing space in control panels. The CIMR-VB4A0009BBA is CE and UL certified, ensuring compliance with international safety standards. Its robust design and comprehensive features make it a reliable choice for enhancing motor performance in industrial automation systems.
