

EU0P-SI-ES3/V

Industrial automation components

Manufacturer	Yaskawa
Catalog number	euop-si-es3v
Category	Industrial automation components
Product type	Industrial automation components
Status	Legacy / discontinued

Technical specification

Weight	0.62 kgs
---------------	----------

Description

Comm.Interface V1000 EtherCAT. Note: The SI-ES/V option card will replace the EU0P-SI-ES3/V card. Both cards will be available in parallel for a certain period of time. On the SI-ES3/V card a few functions work in a different way than on the EU0P-SI-ES3/V card. Therefore we recommend: a) not to mix SI-ES3/V and EU0P-SI-ES3/V cards in one project. b) use the SI-ES3/V, NOT EU0P-SI-ES3/V for new projects. Information on compatibility can be obtained from our technical support
