Manufacturer	Yaskawa
Catalog number	sgdb-20adg-p
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Product Type	AC Servo Drive
Rated Output	2.0 kW
Supply Voltage	200V
Motor Compatibility	SGMG series servomotors (1500 RPM)
Ventilation Type	Duct Ventilation

Description

The Yaskawa SGDB-20ADG-P is a high-performance AC servo drive designed for precise torque, speed, and position control in industrial automation applications. Operating at a rated output of 2.0 kW and a supply voltage of 200V, this drive is compatible with SGMG series servomotors, particularly those rated at 1500 RPM. It features duct ventilation for efficient cooling and is suitable for various automation tasks requiring reliable and accurate motion control.
