

XD-08-MS-D0

Industrial automation components

Manufacturer	Yaskawa
Catalog number	xd-08-msd0
Category	Industrial automation components
Product type	Industrial automation components
Status	Active product

Technical specification

Signal Type	240
Relay Specifications	240 VAC
Voltage	240 V
Power	800
Interface Type	profibus
Signal Level	240 V

Description

The XD-08-MS-D0 is an advanced product from YASKAWA, featuring a voltage of 240V and a power rating of 800W. Equipped with a profibus interface, it ensures efficient communication in automation systems. Both the signal type and signal level are 240, providing stability and reliability in operation. The relay specification is tailored to 240 requirements, making this product an ideal solution for industrial applications.
